Declaration that Premix Premium Top complies with the European Model Environmental Product Declaration Dispersion-based products, group 1.

Dear customer,

Saint-Gobain Sweden AB, Scanspac is a member of Sveff, which in turn is a member of FEICA, the Association of the European Adhesive and Sealant Industry. FEICA has developed European Model EPDs for Dispersion-based products. These Model EPDs were verified by the independent institute IBU (Institut Bauen und Umwelt); Germany's EPD programme holder organization.

The European Model EPDs have been published on the [FEICA website](#), and also on the websites of the IBU¹ and in future ECO (Platform of the European EPD Programme Operators) and can be downloaded there.

As a member of Sveff, and with the help of an internal FEICA guidance, Saint-Gobain Sweden AB, Scanspac is entitled to determine the compatibility of its product with the European Model EPD.

By means of this declaration, we confirm that Premix Premium Top is covered by the European Model EPD for Dispersion-based products, group 1 according to the guidance developed for this purpose. This means that the LCA data and the other content of the attached Model EPD apply to the above-mentioned product and can be used for the assessment of buildings.

Please do not hesitate to contact us if you require any further information.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Ellinor Johansson", written over a horizontal dotted line.

Ellinor Johansson, EHS Coordinator
